Create a safer workplace

Zip Touch-Free

Safety

Twin sensor activation for safe delivery of boiling water.

Dispensing will deactivate when the tap is touched, allowing for safe cleaning.

Suitable for G4 units

The new Zip Touch-Free taps can be combined with Zip HydroTap® G4 undersink units. They are suitable both for original equipment and for replacing existing G4 taps.

PowerPulse Technologie

Our innovative Zip PowerPulse technology maintains stored boiling water to within 0.2 °C of your set temperature, meaning no energy or time is wasted waiting for water to boil.

Air-cooled system

Our unique air-cooled refrigeration system is 100 % water efficient.

Auto-Diagnostics

An advanced auto-diagnostics system continuously monitors the performance of your Zip HydroTap®.

Micropurity filtration

Inbuilt 0.2 micron NSF-certified filter incorporating innovative silver ion antimicrobial technology means healthier, pure tasting water for your workplace.

Infrared function

Zip Touch-Free uses smart infrared sensors to activate the tap to dispense boiling, chilled and sparkling water, all without touching the tap.

Infrared smart sensors detect hand movements 1.5 – 5 cm in range of the tap. Once the hand moves away, the water flow will stop.

All drinking water types will have a maximum run time of 15 seconds which is adjustable from the command centre.

Various types

Zip Touch-Free BCS
